					12,38,108.00	2004-2005

			the Blind & LV, screen children in schools	<p>give more clarity to this point.</p> <p>2. We have succeeded in conducting primary screening programme for all the Cashew factory women workers, school children and other people in kanyakumari district</p> <p>3. We have progress in establishing a secondary treatment service for all patients referred from the primary screening programme but this objective is not keeping in phase with the target since the older people are reluctant to go for operation in far away hospital because of the long distance from their home, the financial backwardness, the lacking cooperation of the family members.</p> <p>4. The project is really a model for many other field activities and the community is positive towards the programme and the project team.</p> <p>5. We have trained and capacitated volunteers, project team members and other anganvadi workers, CBOs and NGO representatives for the effective implementation of the project.</p>	7,52,111.00	2004-2005
